

Support A Classroom in Türkiye

2026-2027 Project Catalog

Would you like to transform a village classroom today?

Many teachers across Turkish villages, faced with limited resources, turn to BTF for support to enhance their students' classroom learning experiences. Through our **Support A Classroom in Türkiye** program, we bridge the gap between your charitable contributions and these teachers, ensuring that your donations are transformed into much needed educational materials and delivered directly to the doors of their schools!

Support A Classroom in Türkiye is a program designed to equip under-resourced schools throughout rural Türkiye with crucial educational supplies. By enhancing the classroom learning experience and improving teacher effectiveness, this program serves as a vital support system not only for students but also for educators.

Teachers in rural Türkiye need your help. Be their hero today for as little as \$25.

Each set and project in this catalog was thoughtfully curated by BTF's volunteers, guided by meaningful conversations with teachers who have shared their schools' specific needs with us since 2007.

Build a science laboratory

For \$10,000, you can create a science laboratory at a village school that opens new possibilities and inspires young minds. Your name will be proudly displayed in the laboratory in celebration of your commitment to expanding access to science education. Write to us at info@bridgetoturkiye.org to get started!

Sponsor a library

Give the gift of endless possibilities by sponsoring a library in an under-resourced school in Türkiye. Your name will become part of a lasting legacy, empowering students through the magic of reading. Reach out via info@bridgetoturkiye.org to learn more!

Boots&Coats

\$56

A Boots&Coats set equips children in underserved communities with winter coats and boots, items that many families cannot afford but which are essential to keeping children healthy and happy.

In regions where harsh winters can make the walk to school and even everyday life difficult, the impact of this gift is immeasurable. Not only does it provide protection from the cold and other elements, but it also eases a significant burden on families, allowing children to attend class regularly, focus on their schooling, and be in community with their classmates.

This winter season, you can cover a child in warmth, preserve their dignity, and give them hope.
